

Hospital Policy Handbook

This document contains hospital rules and policies for patients and visitors. It is intended as a sample document for a Retrieval-Augmented Generation (RAG) project.

1. Appointment Cancellation Policy

Patients should cancel appointments at least 24 hours before the scheduled time. Repeated missed appointments may require rebooking based on availability.

Patients should cancel appointments at least 24 hours before the scheduled time. Repeated missed appointments may require rebooking based on availability.

2. Patient Registration

All patients must provide valid identification during registration. Existing patients should present their patient ID or previous visit information whenever possible.

All patients must provide valid identification during registration. Existing patients should present their patient ID or previous visit information whenever possible.

3. Visitor Policy

Only two visitors are permitted per patient at one time. Visitors must follow staff instructions and maintain a quiet environment.

Only two visitors are permitted per patient at one time. Visitors must follow staff instructions and maintain a quiet environment.

4. Infection Prevention

Hand sanitization is required before entering patient rooms. Masks may be mandatory in designated wards depending on hospital policy.

Hand sanitization is required before entering patient rooms. Masks may be mandatory in designated wards depending on hospital policy.

5. Billing and Payments

Hospital bills should be settled before discharge unless covered by an approved insurance provider. Receipts are issued for all completed payments.

Hospital bills should be settled before discharge unless covered by an approved insurance provider. Receipts are issued for all completed payments.

6. Prescription Medicines

Prescription medications are dispensed only upon presentation of a valid prescription issued by a licensed physician.

Prescription medications are dispensed only upon presentation of a valid prescription issued by a licensed physician.

7. Medical Records Request

Patients can request copies of their medical records by submitting a written request. Processing typically takes three to five business days.

Patients can request copies of their medical records by submitting a written request. Processing typically takes three to five business days.

8. Patient Responsibilities

Patients should provide accurate medical information, follow prescribed treatments, respect hospital staff, and attend follow-up appointments.

Patients should provide accurate medical information, follow prescribed treatments, respect hospital staff, and attend follow-up appointments.

9. Privacy and Confidentiality

Patient information is treated as confidential and is shared only with authorized healthcare professionals or as required by law.

Patient information is treated as confidential and is shared only with authorized healthcare professionals or as required by law.

10. Discharge Policy

Patients receive discharge instructions, prescribed medications, and follow-up recommendations before leaving the hospital.

Patients receive discharge instructions, prescribed medications, and follow-up recommendations before leaving the hospital.

11. Complaint Procedure

Patients may submit complaints or feedback through the Patient Relations Office. Every complaint is reviewed and responded to according to hospital policy.
